

Cutan® Optidose® Alcohol Foam Antiseptic Handrub

PRODUCT DESCRIPTION

An antiseptic handrub that combines unique alcohol foam with added conditioners to improve compliance with just ONE PUSH.

USAGE

For use in healthcare environments where high levels of hand hygiene are vital for surgical hand disinfection.

HOW TO USE

For hygienic hand disinfection:

Ensure hands are clean and dry, apply 1 shot of foam to wet hands thoroughly. Rub in well for at least 30 seconds over entire surface of hands until dry. Repeat throughout the day.

For surgical hand disinfection:

Prior to commencing the surgical antiseptic rub procedure, wash hands and forearms with soap and running water. Subungual areas can be cleaned using a nail pick or brush. Rinse hands and forearms under running water. Dry hands and forearms thoroughly prior to commencing antiseptic rub procedure.

For surgical hand disinfection (according to EN12791), apply as many volume of 3 mL of liquid dispensed as foam onto the hands and forearms as is necessary to keep them wet for 3 minutes. At completion, allow to air dry thoroughly before donning sterile gloves.

INNOVATION

FORMAT: FOAM

	DESCRIPTION	BENEFITS
FEATURES	One Push	Only one push is required to effectively cover the hand with enough product to achieve the recommended 30 second wet time.
	Surgical Scrub	Approved for use as a waterless surgical scrub to the EN12791 standard.
	Instant Foam Action	Rapidly and easily rubs across hands to kill many common germs present on the skin.
	Dispensed as a foam	Provides user with complete control of the product in the hands, preventing the dripping and splashing associated with using liquid/gel alcohol sanitisers.
	Convenient	Available in a range of pack sizes, including the hygienic ultrasonically sealed 1 litre cartridge for use in Deb Hand Sanitiser dispenser; plus portable pump packs for bed-end systems, personal use and areas of limited space.
	Contains moisturisers	Helps prevent skin dryness and leaves the skin feeling soft and refreshed after use.
	No Mess	Does not clog pumps or splash and drip on surrounding floor and wall surfaces as associated with liquid and gel sanitisers.
	No water required	Quickly dries on hands without the need for rinsing with water.
	Skin Hypoallergenic	This product is tested by an independent dermatologist using Human Repeat Insult Patch Tests (HRIPT) to verify and confirm this product does not irritate the skin and has very low allergenic potential.
INGREDIENTS	Perfume-Free and Dye-Free	Designed for people who are sensitive to perfumes and dyes and who prefer products which do not have these added.
	Ethanol - Absolute 70% v/v, Propan - 1-ol 10.6% v/v	With added moisturisers for the rapid and convenient disinfection of clean hands and surgical hand disinfection.
COMPATIBILITY	Proven glove compatibility	Suitable for use with latex, vinyl and nitrile gloves.

Cutan® Optidose® Alcohol Foam Antiseptic Handrub

SAFETY DATA SHEETS

For Safety, Environmental, Handling, First Aid and Disposal information please refer to the Safety Data Sheet which can be downloaded from <https://www.scjp.com/en-au/safety-data-sheets>

HANDLING INSTRUCTIONS

Use product safely. Always read the label and product information before use. Please refer to the label or SDS for safety information.

SHELF LIFE

This product has a shelf life of at least 48 months from the date of manufacture when stored unopened at room temperature.

QUALITY ASSURANCE

SC Johnson Professional products are manufactured in facilities which follow appropriate quality assurance practices, including with respect to quality control processes for raw materials and finished goods, and comply with any regulatory requirements applicable to the manufacturing of such products.

PRODUCT SAFETY ASSURANCE

Product Safety Assessment

The product has been assessed by an independent toxicologist and is declared safe for intended use on hands of adults and children above 3 years of age when used as directed, meeting all relevant regulatory requirements.

CHG Compatibility

The compatibility of Cutan® Optidose® Alcohol Foam handrub with CHG was tested using a Health Care Personnel Hand Wash procedure. In this test, Cutan® Optidose® Alcohol Foam handrub did not significantly influence the efficacy of CHG (Bioscience Labs, 2010).

Skin Compatibility Test

Independent dermatological tests conducted to assess the skin compatibility of the product using voluntary test persons in semi occlusive, 48 consecutive hour application models, shows the product to be non-irritating in use.

Skin Hypoallergenic

The perfume-free and dye-free formulation did not demonstrate a potential for eliciting dermal irritation or sensitisation after conducting an independent 6 week Human Repeat Insult Patch Test (HRIPT).

Allergy sufferers should always refer to the ingredients list before using the product.

Glove Compatibility

In independent testing, the use of Cutan® Alcohol FOAM handrub in combination with reputable latex, vinyl and nitrile gloves does not have any deleterious effect on the glove tensile properties using BS EN 455-2:2009 test methodology.
