

Stokolan® Classic

Enriched Skin Conditioning Cream

PRODUCT DESCRIPTION

A highly effective skin conditioning cream enriched with high levels of moisturizers. Helps to soothe dry and stressed skin by supporting the regeneration of the skin's own natural barrier function.

WHERE TO USE

For use in industrial and healthcare environments, especially where employees are prone to dry or stressed skin.

After-work skin restore creams help to maintain the skin in healthy condition by keeping it strong and supple, avoiding dryness. Using restore creams is an important element in skin care best practice.

INSTRUCTIONS FOR USE

- Apply 1ml to clean and dry skin prior to extended breaks and at the end of the working day
- Rub on all areas of the hands, including between the fingers and around the fingernails
- Can also be used on the face

Keep out of reach of children. If contact occurs with eyes, rinse with water. If swallowed, get medical help or contact a poison control center immediately.

FORMAT: **CREAM**

FEATURES	BENEFITS
Enriched skin conditioning formula	Hydrates and nourishes to help recondition work stressed skin.
Restores skin barrier	Clinically proven to support regeneration of the skin's own natural barrier function when used regularly.
Contains pharmaceutical-grade lanolin	A natural emollient known for its excellent care and skin nourishing properties. Helps restore natural oils and moisturizers to condition dry and rough skin.
Rich in moisturizers	High levels of Glycerin and Urea enhance the water holding capacity of the skin's upper layers, supporting the skin's own moisture system and helps improve skin elasticity.
Awarded with the ECARF quality seal	Ideal for persons suffering from allergies and suitable for sensitive and eczema-prone skin.
Silicone-free	Suitable for use in any production sites where paint and surface coating processes are undertaken.
Compatible with rubber production processes	Independently tested at the German Institute of Rubber Technology (DIK) and proven to have no negative effect on the vulcanization process.

Stokolan® Classic

Enriched Skin Conditioning Cream

STATUTORY REGULATIONS

This product is regulated by and compliant with the Cosmetic Regulations in the Canadian Food and Drug Regulations of Health Canada. SC Johnson Professional products are produced and tested to ensure they meet the quality requirements for registration and/or approval by Health Canada.

SAFETY DATA SHEETS

For Safety, Environmental, Handling, First Aid and Disposal information please refer to the Safety Data Sheet which can be downloaded from www.debgroup.com/ca/sds.

SHELF LIFE

This product has a shelf life of at least 30 months from the date of manufacture when stored unopened at room temperature. For shelf life after opening: see indication on packaging.

CERTIFICATIONS

ECARF Seal of Quality

The European Centre for Allergy Research Foundation (ECARF) awards the ECARF-quality seal to allergy-friendly products.

Cosmetics can receive this seal when following criteria are met:

1. Quantitative risk assessment of the product ingredients with respect to their potential for sensitisation, taking into account their specified conditions of use and amount.
2. Medically supervised clinical trials by volunteers with atopic dermatitis.
3. Approved system of quality control management.

QUALITY ASSURANCE

SC Johnson Professional products are manufactured in facilities which follow Good Manufacturing Practice (GMP) and/or Cosmetic GMP requirements.

All raw materials used for production undergo a thorough quality control process before being used for manufacturing in SC Johnson Professional's high quality products.

All finished goods are subject to intensive quality testing before being shipped out to our customers.

PRODUCT SAFETY ASSURANCE

Skin Compatibility Test

Clinical dermatological tests have been conducted to assess the skin compatibility of the product using voluntary test persons in enclosed and repeat application models. These tests, as well as in practical use, have proven that the product has very good skin compatibility. Skin compatibility expert reports are available upon request.

Toxicological Approval

The product has been independently assessed for human toxicity and product stability. It is declared safe for intended use, meeting all relevant regulatory requirements.

INGREDIENTS

AQUA (WATER), PARAFFINUM LIQUIDUM, GLYCERIN, GLYCERYL STEARATE SE, LANOLIN, STEARIC ACID, CETEARYL ALCOHOL, UREA, POTASSIUM STEARATE, METHYLPARABEN, DEHYDROACETIC ACID, SORBIC ACID, PROPYLPARABEN, PARFUM (FRAGRANCE).

COMPATIBILITY TESTS

Rubber Production Process Compatibility

In testing conducted by the Deutsches Institut für Kautschuktechnologie (DIK) in accordance with DIN EN ISO/IEC 17025, the use of Stokolan® Classic in rubber production process does not influence the cohesive strength of rubber.

EFFICACY TESTS

Skin Hydration Test

The moisturizing properties of Stokolan® Classic were assessed via application of the product twice daily at an interval of approx. 5 hours to the forearm skin of healthy volunteers over a 4 day test period. The starting values for the skin moisture were determined in the morning by means of the Corneometer® and before the first application and then again on the morning of the subsequent day.

Results show that under repeated usage conditions, Stokolan® Classic provides a continuous increase in the hydration of the skin by 31.7% over untreated skin. This demonstrates that the skin moisture is clearly improved by Stokolan® Classic when used regularly.

Skin Repairing Test

Skin regeneration testing was performed on the forearm skin of healthy volunteers. Skin damage was induced by occlusive application of 0.5% sodium lauryl sulphate solution over a 12 hour period. The initial damage of the skin was classified by means of two parameters: a) visual inspection (irritation score according to Frosch and Kligman) and b) trans-epidermal water loss (TEWL as an indicator of the skin barrier quality). Stokolan® Classic was then applied twice daily at an interval of approx. 5-6 hours over a 4 day test period.

Results show that under repeated usage conditions, both the visually apparent damage and the barrier damage characterised by the TEWL is reduced compared to untreated skin. This demonstrates that the skin condition and barrier function is repaired by Stokolon® Classic when used regularly.

PACK SIZES

STOCK CODE	SIZE	CASE QUANTITY
SCL100ML	100ml Tube	12
SCL1L	1 Litre Cartridge	6
RES1LDS	1 Litre Dispenser	15
