FORMAT: FOAM

FEATURES	BENEFITS
Removes over 99% of dirt and germs	Just a single pump is required to deliver highly effective skin cleansing when used properly.
Contains skin moisturizer	Helps prevent drying and leaves the skin feeling smooth after use.
Reduces water consumption	Foam soaps can save up to 45% on water consumption during handwashing compared to lotion soaps.
Foam technology provides excellent cost in use	Highly economical, only one dose is required to provide effective hand cleansing. Provides over 30% more washes and uses 36% less product compared to lotion soap.
High quality smooth foam	Pleasant silky-smooth skin feel when washing; helps reinforce good handwashing practice.
Convenient, quick and easy	Dispenses foam instantly on to the hands, reducing the time required to create lather. Quickly and easily rinses away to leave no residue on skin or in the sink.
Mild Preservative	Specially formulated with one of the mildest preservatives to reduce the risk of skin irritation from using this product.
Signature Fragrance	A Fresh Apple fragrance with caring, pleasantly fresh and clean notes to elevate the washroom experience for everyday use. Proven to have broad appeal amongst washroom users.
Mild Formulation	Dermatologist tested to verify and confirm this product does not elicit dermal irritation.

SAFETY DATA SHEETS

For Safety, Environmental, Handling, First Aid and Disposal information, please refer to the Safety Data Sheet which can be downloaded from SDS library on www.scjp.com.

SHELF LIFE

This product has a shelf life of 30 months from the date of manufacture when stored unopened at room temperature.

QUALITY ASSURANCE

SC Johnson Professional® products are manufactured in facilities which follow appropriate quality assurance practices, including with respect to quality control processes for raw materials and finished goods, and comply with any regulatory requirements applicable to the manufacturing of such products.

EFFICACY TESTS

Water Saving

Independent tests show that washing hands with foam soap rather than lotion soap can reduce average water consumption by as much as 45% when using a modified hand wash approach of dispensing soap on dry hands and turning the tap on only when rinsing off (SC Johnson Professional Sponsored Study: How a simple change in the washroom can significantly reduce water consumption and associated costs. Durrant and McKay, 2011).

Dirt Removal

The hands of healthy volunteers were pre-washed, treated with an artificial soil media and washed using a dosage of 1 shot (0.7ml) of Hygenipak Instafoam. The residual dirt and cleaning efficacy, respectively was determined after each wash procedure and in this test 99.4% of visible dirt was removed.

Germ Removal

0.7ml of Hygenipak Instafoam was tested using EN1499:2013 method on E.coli k12 for a 30 second wash time. Results show Hygenipak Instafoam achieved a 2.34log10 reduction.

716CA is made in Canada with domestic and imported materials.
