Stokolan® LIGHT *PURE*

Skin Conditioning Cream

PRODUCT DESCRIPTION

Light texture skin conditioning cream to help care for normal to dry skin. Fragrance-free and dye-free.

WHERE TO USE

For use in industrial and healthcare environments, especially where employees are prone to dry or stressed skin.

INSTRUCTIONS FOR USE

- Apply 1mL to clean and dry skin prior to extended breaks and at the end of the working day.
- Rub on all areas of the hands, including between the fingers and around the fingernails.
- Can also be used on the hands, face & whole body.

After-work skin care creams help to maintain the skin in good condition keeping it strong and healthy, avoiding dryness. Using care creams is an important element in skin care best practice.

FORMAT: CREAM

[1] [2]

	DESCRIPTION	BENEFITS
FEATURES	Non-greasy formula	Designed for normal to dry skin to absorb and leave no greasy afterfeel, encouraging regular use and maintaining good skin condition.
	Skin Hypoallergenic	This product is tested by an independent dermatologist using Human Repeat Insult Patch Tests (HRIPT) to verify and confirm this product does not irritate the skin and has very low allergenic potential.
INGREDIENTS	Fragrance-free and Dye-free	Designed for people who are sensitive to fragrances and dyes and who prefer products which do not have these added.
	Contains Shea Butter	An emollient known for its excellent care and skin nourishing properties. Included to help lock in hydration to condition dry and rough skin.
	Contains Allantoin	Supports the moisturization effect and helps condition the skin.
	Contains Glycerin	A skin moisturizer to help prevent drying and leave the skin feeling smooth after use.
	Silicone-free	Reduces the risk of silicone related compatibility issues, if in contact with surfaces prior to the application of paint or surface coatings.
CERTIFICATES/ COMPATIBILITY	HACCP Certified[2]	Certified by HACCP International as being suitable for use in facilities that operate a HACCP based food safety program (Food Zone Classification SSZ) when used as directed. Food handlers should use product only in accordance with label instructions and product should not come directly into contact with food or items that contain food.
	ECARF Certified[1]	This product meets the European Centre for Allergy Research Foundation (ECARF) criteria for skin tolerability. For more information go to https://www.ecarf-institute.org/en/ecarf-seal/
	Suitable for food facilities	The product has been independently evaluated and proven to not have the potential to taint food. Food handlers should use product only in accordance with usage instructions and product should not come directly into contact with food or items that contain food.
	Compatible with rubber production processes	Independently tested at the German Institute of Rubber Technology (DIK) and proven to have no negative effect on the vulcanization process.
	Compatible with alcohol-based hand sanitizers	Can be used in hygiene sensitive areas where hand sanitizing procedures are necessary.
	Proven glove compatibility	Suitable for use with latex, vinyl and nitrile gloves.
	Chlorhexidine Gluconate (CHG) Compatible	Does not decrease the residual activity of CHG.

SAFETY DATA SHEETS

For Safety, Environmental, Handling, First Aid and Disposal information, please refer to the Safety Data Sheet which can be downloaded from SDS library on https://www.scjp.com/en-ca/safety-data-sheets

SHELF LIFE

This product has a shelf life of 30 months from the date of manufacture when stored unopened at room temperature.

CERTIFICATIONS

ECARF Seal of Quality

This product meets the European Centre for Allergy Research Foundation (ECARF) criteria for skin tolerability. Cosmetics can receive the seal of quality for meeting the following criteria:

1. Quantitative risk assessment of the product ingredients with respect to their potential for skin sensitisation, taking into account their specified conditions of use and amount.

2. Medically supervised clinical trials by volunteers with atopic dermatitis.

3. Approved system of quality control management.

For more information go to https://www.ecarf-institute.org/en/ecarf-seal/

This product is designed for sensitive skin and is formulated to reduce its allergenic potential[1]

HACCP International Certified

This product and the dispensers it is to be used with have been certified by HACCP International as being food-safe hand hygiene products suitable for use in facilities that operate in accordance with a HACCP based food safety programme in Food Zone Classification SSZ (Splash or Spill Zone). This means products are suitable for use in food handling areas such as kitchens, production areas and processing areas, but not suitable for coming directly into contact with food or items that will touch food. HACCP International's evaluation and certification is strictly confined to matters of food safety or the operation of a HACCP based food safety programme. Whilst all reasonable care is taken by HACCP International in its evaluation of the product(s) or services(s) described herein, HACCP International does not guarantee that every food safety risk in every application has been identified. No guarantee is offered or implied in the issuing of this statement.

QUALITY ASSURANCE

SC Johnson Professional products are manufactured in facilities which follow appropriate quality assurance practices, including with respect to quality control processes for raw materials and finished goods, and comply with any regulatory requirements applicable to the manufacturing of such products.

INGREDIENTS

Aqua, Dicaprylyl Ether, Cetearyl Alcohol, Glycerin, Ceteareth-20, Phenoxyethanol, Ethylhexylglycerin, Butyrospermum Parkii (Shea) Butter, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Allantoin, Sodium Benzoate, Tetrasodium Iminodisuccinate, Sodium Hydroxide

PRODUCT SAFETY ASSURANCE

Skin Compatibility Test

Independent dermatological tests conducted to assess the skin compatibility of the product using voluntary test persons in occlusive, 48 consecutive hour application models, shows the product to be non-irritating bin use.

Product Safety Assessment

The product has been assessed by an independent toxicologist and has been declared to be safe for use on hands, face and whole body of adults aged 16 and above.

Skin Hypoallergenic Risk Assessment

The formulation has been assessed by an independent toxicologist to be formulated in such a way as to provide either minimal or no risk of provoking allergic skin response and thus meets the requirements for being described as 'Hypoallergenic' (Delphic Solutions Ltd, UK).

SUITABLE FOR USE IN FOOD HANDLING AREAS

When used as instructed, Stokolan® Light *PURE* cream does not influence the quality of foodstuffs. The product has been independently tested according to Sensory Analysis - Methodology - Triangle Test BS EN ISO 4120:2007 and has been proven to not have the potential to taint food, thereby supporting and meeting HACCP standards for impact on the smell and taste of food-stuffs.

COMPATIBILITY TESTS

Glove Compatibility

In independent testing, the use of Stokolan® Light *PURE* cream combination with reputable latex, vinyl and nitrile gloves does not have any deleterious effect on the glove tensile properties using BS EN 455-2:2009 test methodology.

Rubber Production Process Compatibility

In testing conducted by the Deutsches Institut für Kautschuktechnologie (DIK) in accordance with EN ISO/IEC 17025, the use of Stokolan® Light *PURE* cream in rubber production process does not influence the cohesive strength of rubber.

EFFICACY

Sanitizer Compatibility Test

The compatibility of Stokolan® Light *PURE* cream with alcohol-based hand sanitizers was tested using a modified EN13727 test protocol. Results show that Stokolan® Light *PURE* cream does not negatively affect the efficacy of alcohol based hand sanitizers against P. aeruginosa, E. coli, S. aureus and E. hirae.

CHG Compatibility Test

In independent testing, the application of Stokolan® Light *PURE* cream to the skin of the volar forearm post washing with a reputable CHG containing skin cleaner, did not impact the residual antibacterial efficacy of the CHG cleaner, when tested against the bacterium A. radioresistens. The independent laboratory found there was no statistically significant difference between the log reduction values of the bacterium obtained by the CHG cleaner combined with Stokolan® Light *PURE* cream and those obtained by the CHG cleaner on its own.
