

Swarfega® JIZER

Solvent Based Parts Degreaser

PRODUCT DESCRIPTION

Quickly and efficiently dissolves heavy deposits of oil and grease from a wide range of non-porous surfaces. Before use, test compatibility with surface to be cleaned by applying to a small area first.

WHERE TO USE

For all mechanics and tradespeople who need to clean machinery.

INSTRUCTIONS FOR USE

Apply neat by dipping, brushing, wiping or low pressure spray. Leave for a few minutes to break down and dissolve soiling. Remove by rinsing with water, blow dry with an airline or wipe dry with a tissue or cloth. To prevent rusting, treat cleaned metals with Swarfega® Duck Oil. To remove oil marks etc. from bodywork, pour onto a cloth and rub gently.

CAUTION: Cannot be used on tarmac surfaces and can affect some types of plastics, rubber, bitumen and asphalt.

	DESCRIPTION	BENEFITS
