

Cutan® INSTANTGEL™

ALCOHOL-BASED GEL HAND SANITISER

PRODUCT DESCRIPTION

Highly effective broad spectrum alcohol based hand sanitising gel.

WHERE TO USE

Ideal for use in all healthcare and food handling environments where high levels of hand hygiene are vital. Also, suitable for use in cafeterias, office areas, rest areas and any public facility to help reduce the spread of germs.

BIOCIDAL EFFICACY

Bactericidal, Virucidal, Yeastidal.

WHEN TO USE

Healthcare environments – use hand sanitiser as per the World Health Organisations '5 Moments of Hand Hygiene' recommendations.

Food handling environments – use hand sanitiser as recommended by HACCP risk assessment.

General hygienic use – use hand sanitiser after coughing, sneezing, contact with body fluids or touching potentially contaminated surfaces.

HOW TO USE

Ensure hands are clean and dry before use. Use several times a day, as required.

For general hygienic use: apply 1-2 doses direct to clean hands and rub across all parts of dry and clean hands.

For hygienic skin disinfection (according to the EN1500 standard) – apply 3 doses (3ml) and spread across all parts of dry and clean hands for 30 seconds (60 seconds for viruses); re-apply as necessary to keep hands wet.

	DESCRIPTION	BENEFITS
FEATURES	Complete broad spectrum activity	Highly effective formula kills 99.999% of many common germs, and is fully tested and proven to be bactericidal, virucidal and yeasticidal.
	Full virucidal activity	According to test method EN14476 the product is effective against all enveloped and non-enveloped viruses.
	Instant gel action	Rapidly and easily rubs across hands, providing the user with complete control of the product, preventing the dripping and splashing associated with using liquid alcohol sanitisers.
	Pleasant-to-use	The smooth gel format is designed for frequent use in-between hand washing to encourage hand hygiene compliance.
	No water required	Quickly dries on hands without the need for rinsing with water. Ideal for use outside the washroom at the point of need.
	Skin Hypoallergenic	This product is tested by an independent dermatologist using Human Repeat Insult Patch Tests (HRIPT) to verify and confirm this product does not irritate the skin and has very low allergenic potential.
INGREDIENTS	Perfume-Free and Dye-Free	Designed for people who are sensitive to perfumes and dyes and who prefer products which do not have these added.
	80% alcohol content	The formula with a high level of ethanol meets the requirements for effective broad-spectrum efficacy and is proven to be bactericidal, virucidal and yeasticidal.
	Contains Glycerin and Panthenol	Skin moisturisers to help prevent drying and leave the skin feeling smooth after use.
	Contains Hamamelis astringent extract	Helps to prevent the skin from softening when sweating during glove use.
	Silicone-free	Reduces the risk of Silicone related compatibility issues, if in contact with surfaces prior to the application of paint or surface coatings.
	Not made with ingredients of animal origin	Helps customers with Halal and Kosher ingredient requirements.
COMPATIBILITY	Suitable for food facilities	The product has been independently evaluated and proven to not have the potential to taint food. Food handlers should use product only in accordance with usage instructions and product should not come directly into contact with food or items that contain food.
	Proven glove compatibility	Suitable for use with latex, vinyl and nitrile gloves.

Cutan® INSTANTGEL™

ALCOHOL-BASED GEL HAND SANITISER

STATUTORY REGULATIONS

This product meets the current national regulations for Biocidal products.

SAFETY DATA SHEETS

For Safety, Environmental, Handling, First Aid and Disposal information please refer to the Safety Data Sheet which can be downloaded from <https://www.scjp.com/en-gb/safety-data-sheets>

HANDLING INSTRUCTIONS

Use biocides safely. Always read the label and product information before use. Please refer to the label or SDS for safety information.

SHELF LIFE

This product has a shelf life of 36 months from the date of manufacture when stored unopened at room temperature.

SUITABLE FOR USE IN FOOD HANDLING AREAS

When used as instructed, Cutan® INSTANTGEL™ does not influence the quality of foodstuffs. The product has been independently tested according to Sensory Analysis - Methodology - Triangle Test BS EN ISO 4120:2007 and has been proven to not have the potential to taint food, thereby supporting and meeting HACCP standards for impact on the smell and taste of foodstuffs.

QUALITY ASSURANCE

SC Johnson Professional products are manufactured in facilities which follow appropriate quality assurance practices, including with respect to quality control processes for raw materials and finished goods, and comply with any regulatory requirements applicable to the manufacturing of such products.

PRODUCT SAFETY ASSURANCE

Product Safety Assessment

The product has been assessed by an independent toxicologist and is declared safe for intended use on hands of adults and children above 3 years of age when used as directed, meeting all relevant regulatory requirements.

Skin Compatibility Test

Independent dermatological tests conducted to assess the skin compatibility of the product using voluntary test persons in semi occlusive, 48 consecutive hour application models, shows the product to be non-irritating in use.

Skin Hypoallergenic

The perfume-free and dye-free formulation did not demonstrate a potential for eliciting dermal irritation or sensitisation after conducting an independent 6 week Human Repeat Insult Patch Test (HRIPT).

Allergy sufferers should always refer to the ingredients list before using the product.

Glove Compatibility

In independent testing, the use of Cutan® INSTANTGEL™ hand sanitiser in combination with reputable latex, vinyl and nitrile gloves does not have any deleterious effect on the glove tensile properties using BS EN 455-2:2009 test methodology.

PRODUCT TESTING
