

MULTI-SURFACE CLEANER & DISINFECTANT

PRODUCT DESCRIPTION

- Simplify your cleaning routine with the TruShot 2.0[®] Multi-Surface Cleaner & Disinfectant. This 2-step concentrate detergent is specially formulated for use on a wide range of non-porous hard surfaces.
- Ideal for professional environments, it effectively tackles grime — while helping maintain hygienic standards.
- Free from perfumes and dyes, it's a smart choice for facilities that prioritise safety, cleanliness, and minimal residue.

BIOCIDAL ACTIVITY

Effective against bacteria, enveloped viruses, yeasts.

SECTORS OF USE

Suitable for professional settings such as: offices and municipalities, education, food services, contract cleaners, retail, transport, sport and leisure facilities, hospitality / hotels and lodgings etc.

APPLICATION DOMAINS

Recommended Surfaces:

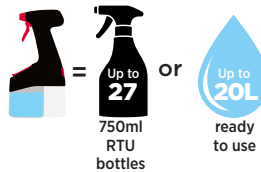

Use on washable hard, non-porous surfaces: such as aluminium, ceramic, formica, glass, laminate, plastic/vinyl, Plexiglas^{®2}, quartz, sealed marble, sealed granite, slate and stainless steel.

Suitable for Food Zone Secondary (FZS).

Safe for use on most bathroom fixtures, fittings, cabinets, chairs, counter-tops, desks, doorknobs, exterior of appliances, tables, taps, sinks, slate, tiles, baths, walls, toilets, garbage cans.

SOILINGS:

Efficient on dust and grime.

Compatible with TruShot 2.0[®] Trigger

	FEATURES	BENEFITS
EFFICIENCY	Broad spectrum efficacy	Has bactericidal, virucidal on enveloped viruses and yeasticidal activity. Effective on 99.9% of bacteria and 99.99% on enveloped viruses.
	Cleaning action	Tackles grime found in professional environments in hard water.
	Highly concentrated and economical	1 cartridge of 266ml provides up to 27 bottles of 750ml and up to 20 ready-to-use litres.
	Storage efficiency	Saves 98% of janitorial cupboard space with TruShot 2.0 [®] Multi-Surface Cleaner & Disinfectant when compared to purchasing the equivalent amount of typical, ready-to-use trigger sprays ³
	Saves time and boosts productivity	TruShot 2.0 [®] system saves over 70% of walking time and refill time by being able to fill it at the nearest water source, as opposed to returning to the janitorial cupboard. This equates to 48 hours of productivity per full time employee per year ⁴
SECURED SYSTEM	Snap-in, colour-coded cartridges	Colour-coded, easy-to-read cartridges that simplify identification and help support compliance. While spill-free, snap-in design ensures fast, mess-free changes for cleaning teams.
	No mixing	Sealed cartridges reduce exposure to concentrated product. No concentrate is dispensed when water tank is empty.
	Cartridge and trigger dispenser HACCP International Certified¹	Multi-Surface Cleaner & Disinfectant is suitable for use in non industrial facilities that operate a HACCP based food safety programme Food Zone Secondary (FZS) when used as directed when used as directed with the TruShot 2.0 [®] trigger dispenser.
SUSTAINABILITY FOCUSED	Product savings	Fresh dose diluted and mixed on demand at the point of use. This helps reduce waste of pre-mixed diluted formulations.
	Plastic savings	Using the TruShot 2.0 [®] system, it delivers up to 91% reduction in plastic used compared to equivalent ready-to-use 750ml bottle with sprayer ⁵ .
	Durable, reusable trigger	Trigger has been tested to last up to 250,000 trigger pulls, with only the cartridge that needs to be changed. The bottle construction withstands 1.8m drop test.

² Tests made on Altuglas[®] EX Clear and Altuglas[®] CN ClearWhite. ³ 80 litres of product in one case versus over 17 cases of RTU sprayers each containing 6 x 750ml trigger sprays ⁴ Sponsored ISSA Full Time Study & Cleaning Time Validation Report, US, May 2023. ⁵ Over the life of a TruShot 2.0[®] trigger and TruShot 2.0[®] Glass & Multi-Surface Cleaner cartridges, compared to the usage of 750ml bottles with sprayers (containing 65 grams of plastic).. Altuglas[®] is a registered trademark of Arkema, Inc. Plexiglas[®] is a registered trademark of Arkema France.

MULTI-SURFACE CLEANER & DISINFECTANT

INSTRUCTIONS FOR USE: For use only with TruShot 2.0® mobile dilution system

1. Slide cartridge into the sprayer until it clicks.

2. Lift lid. Add tap water in the water tank (until MAX). Close the lid.

3. Turn the nozzle on the wide or short spray depending on the targeted cleaning choice.

4. TO CLEAN Spray 20cm from surface until thoroughly covered. For heavily soiled areas allow to stand for several minutes.

5. TO DISINFECT Ensure surface is clean. Spray 20cm from surface until thoroughly wet. Let surface stand wet for 5 minutes. Disinfected surfaces which may come into contact with food must be rinsed with potable water.

6. At the end of the day, empty completely water from water tank - every 24 hours maximum. Turn nozzle to OFF. Store water tank upright, open and empty.

CHANGING CARTRIDGES:

1. Press the release button (A) Remove the cartridge (B)

2. Spray one time after cartridge has been removed.

3. Insert new cartridge. Add water before use.

4. Spray 5 times to prime dispenser before applying the product to the surface.

Use biocides safely. Always read the label and product information before use.

CERTIFICATION

HACCP International certified

SC Johnson Professional TruShot 2.0® Multi-Surface Cleaner & Disinfectant (when used with the SC Johnson Professional TruShot 2.0® Trigger dispenser) is appropriate for use in food facilities that operate in accordance with a HACCP based Food Safety Programme, within the splash and spill zone (SSZ) of the facility.

Food Zone Secondary items are suitable for touching food contact surfaces but are not expected to touch food during normal conditions of use.

HACCP International's evaluation and certification is strictly confined to matters of food safety or the operation of a HACCP based food safety programme. Whilst all reasonable care is taken by HACCP International in its evaluation of the product(s) or services(s) described herein, HACCP International does not guarantee that every food safety risk in every application has been identified. No guarantee is offered or implied in the issuing of this statement.

Food handlers should use product only in accordance with usage instructions and product should not come directly into contact with food.

BIOCIDAL EFFICACY	TEST STANDARD	CONTACT TIME	COMMENT
Bactericidal	EN1276 EN13697	1 minute	Tested against <i>Staphylococcus aureus</i> , <i>Escherichia coli</i> , <i>Pseudomonas aeruginosa</i> , <i>Enterococcus hirae</i>
Yeasticidal	EN1650	1 minute	Tested against <i>Candida albicans</i> (yeast)
Virucidal against enveloped viruses	EN14476 EN16777	5 minutes	Tested against Modified Vaccinia ankara (MVA)*. *Examples of enveloped viruses include: influenza and human coronaviruses (such as SARS-CoV-2).
