	FEATURES	BENEFITS
EFFICIENCY	Powerful cleaning efficacy	Cleans and leaves a streak-free shine. Formulated without Ammonia. Removes dirt, grease, oil, dust, grime and fingerprints.
	Highly concentrated and economical	One cartridge provides up to 40 750ml RTU sprayers or up to 30 ready-to-use litres.
	Saves time and boosts productivity	TruShot 2.0® system saves over 70% of walking time and refill time by being able to fill it at the nearest water source, as opposed to returning to the janitorial cupboard. This equates to 48 hours of productivity per full time employee per year ⁶ .
	Storage efficiency	Saves 99% of janitorial cupboard space with TruShot 2.0® Glass & Multi-Surface Cleaner when compared to purchasing the equivalent amount of typical, ready-to-use trigger sprays ⁷ .
	Pleasantly fragranced	Pleasant clean fresh scent with no harsh smells from cleaning solvents. Harmonised fragrances across the range to deliver a consistent fragrance experience ⁸ .
SECURED SYSTEM	Snap-in, colour-coded cartridges	Colour-coded, easy-to-read cartridges that simplify identification and help support compliance. While spill-free, snap-in design ensures fast, mess-free changes for cleaning teams.
	No mixing	Sealed cartridges reduce exposure to concentrated product. No concentrate is dispensed when water tank is empty.
	Cartridge and trigger dispenser HACCP International Certified ²	Glass & Multi-Surface Cleaner is suitable for use in non industrial facilities that operate a HACCP based food safety programme Splash & Spill Zone (SSZ) when used as directed with the TruShot 2.0® trigger dispenser.
SUSTAINABILITY FOCUSED	Product savings	Fresh dose diluted and mixed on demand at the point of use. This helps reduce waste of pre-mixed diluted formulations.
	Plastic savings	Using the TruShot 2.0® system, it delivers up to 91% reduction in plastic used compared to equivalent ready-to-use 750ml bottle with sprayer ⁹ .
	Durable, reusable trigger	Trigger has been tested to last up to 250,000 trigger pulls, with only the cartridge that needs to be changed. The bottle construction withstands 1.8m drop test.
	ECOLOGO® Certified ¹	This product is certified to meet ECOLOGO® UL 2759 Standard for Hard Surface Cleaners. For more information: UL.com/EL.

³ Not suitable for food contact surfaces. ⁴ Tests made on Altuglas® EX Clear and Altuglas® CN ClearWhite. ⁵ Always follow the device manufacturer's instructions for care prior to cleaning. ⁶ Sponsored ISSA Full Time Study & Cleaning Time Validation Report, US, May 2023. ⁷ 120 litres of product in one case versus over 26 cases of RTU sprayers each containing 6 x 750ml trigger sprays. ⁸ except Multi-Surface Cleaner & Disinfectant which is perfume-free. ⁹ Over the life of a TruShot 2.0® trigger and TruShot 2.0® Glass & Multi-Surface Cleaner cartridges, compared to the usage of 750ml bottles with sprayers (containing 65 grams of plastic). Altuglas® is a registered trademark of Arkema, Inc. Plexiglas® is a registered trademark of Arkema France.

INSTRUCTIONS FOR USE: For use only with TruShot 2.0® mobile dilution system

1. Slide cartridge into the sprayer until it clicks.
2. Lift lid. Add tap water in the water tank (until MAX). Close the lid.
3. Turn the nozzle on the wide or short spray depending on the targeted cleaning choice.
4. Spray 20cm from surface and wipe dry with a reusable cloth or rubber squeegee. No rinsing.
5. At the end of the day, completely empty water from water tank - every 24 hours maximum. Turn nozzle to OFF. Store water tank upright, open and empty.

CHANGING CARTRIDGES:

1. Press the release button (A) Remove the cartridge (B)
2. Spray one time after cartridge has been removed.
3. Insert new cartridge. Add water before use.
4. Spray 5 times to prime dispenser before applying the product to the surface.

HACCP International Certified

SC Johnson Professional TruShot 2.0® Glass & Multi-Surface Cleaner (when used with the SC Johnson Professional TruShot 2.0® Trigger dispenser) is appropriate for use in food facilities that operate in accordance with a HACCP based Food Safety Programme, within the splash and spill zone (SSZ) of the facility.

This means products are suitable for use in food handling areas such as kitchens, production areas and processing areas, but not suitable for coming directly into contact with food or items that will touch food.

HACCP International's evaluation and certification is strictly confined to matters of food safety or the operation of a HACCP based food safety programme. Whilst all reasonable care is taken by HACCP International in its evaluation of the product(s) or services(s) described herein, HACCP International does not guarantee that every food safety risk in every application has been identified. No guarantee is offered or implied in the issuing of this statement.

Food handlers should use product only in accordance with usage instructions and product should not come directly into contact with food.
