

TRIGGER SPRAYER

PRODUCT DESCRIPTION

- Innovative, mobile concentrate system with auto-dilution technology that gets cleaning teams cleaning hard surfaces in minutes.
- With auto-dilution technology, TruShot 2.0® delivers an optimised dilution of hard surface cleaning concentrates, eliminating the need for any manual mixing and removing any guesswork.
- One reusable, durable trigger spray dispenser can be used with all 4 cleaning concentrates to clean over 30 different surfaces in a multitude of environments.

SECTORS OF USE

Suitable for professional settings such as: offices and municipalities, education, food services, contract cleaners, retail, transport, sport and leisure facilities, hospitality / hotels and lodgings, etc.

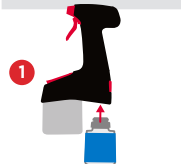

Compatible with the TruShot 2.0® cartridges

	FEATURES	BENEFITS
EFFICIENCY	Accurate optimised dilution	Built-in metering technology delivers exactly 1.0ml of optimally diluted solution per spray. This eliminates guesswork, prevents costly over or underdosing, ensuring a consistent cleaning performance each time.
	Highly economical	Supplies up to the equivalent of 11 to 36 to 8 to 30 ready-to-use litres and 11 to 40 750ml, RTU bottles (depending on the cartridge). Refer to the label for more details. Helps reduce waste from pre-mixed or diluted ready-to-use products.
	One system, many surfaces	With 4 different hard surface cleaning concentrates, a wide variety of cleaning needs can be met. Multi-surfaces cleaning and disinfection, cleaning in washrooms, kitchens or tough soiling, glass and windows.
	Easy to use and intuitive system	Easy to refill, easy to clean, easy to carry, easy to change cartridges, enables you to change cartridges without problem. One dispensing system for ALL formulas.
	Zero prep, fast training	Cleaning teams are trained in minutes, with no manual mixing, prep time, or relabelling required. Dilution is automatic and accurate, freeing managers from checking and reducing any formulation waste from human error.
	2 effective spray modes	Dual spray pattern; wide spray allows for greater coverage, narrow spray allows for targeted cleaning.
	Saves time and boosts productivity	TruShot 2.0® system saves over 70% of walking time and refill time by being able to fill it at the nearest water source, as opposed to returning to the janitorial cupboard. This equates to 48 hours of productivity per full time employee per year ² .
	Storage efficiency	Saves 96% of janitorial cupboard space with TruShot 2.0® Glass & Multi-Surface Cleaner when compared to purchasing the equivalent amount of typical, ready-to-use trigger sprays ³ .
SECURED SYSTEM	Mobility and autonomy	Portable and comfortable system, can be filled at any water source not requiring the use of a water hose. On-board 295ml water tank provides up to 300 trigger pulls before refilling.
	Snap-in, colour-coded cartridges	Colour-coded, easy-to-read cartridges that simplify identification and help support compliance. While spill-free, snap-in design ensures fast, mess-free changes for cleaning teams.
	No mixing	Sealed cartridges reduce exposure to concentrated product. No concentrate is dispensed when water tank is empty.
SUSTAINABILITY FOCUSED	Cartridges and trigger dispenser HACCP International Certified¹	This product is suitable for use in non industrial facilities that operate a HACCP based food safety programme when used as directed.
	Less plastic	Using the TruShot 2.0® system, it delivers up to 91% reduction in plastic used compared to equivalent ready-to-use 750ml bottle with sprayer ⁴ .
	Durable, reusable trigger	Trigger has been tested to last up to 250,000 trigger pulls, with only the cartridge that needs to be changed. The bottle construction withstands 1.8 m drop test.

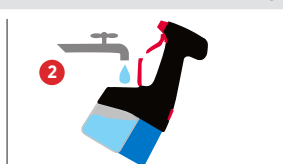

² Sponsored ISSA Full Time Study & Cleaning Time Validation Report, US, May 2023. ³ 120 litres of product in one case versus over 26 cases of RTU sprayers each containing 6 x 750ml trigger sprays.

⁴ Over the life of a TruShot 2.0® trigger and TruShot 2.0® Glass & Multi-Surface Cleaner cartridges, compared to the usage of 750ml bottles with sprayers (containing 65 grams of plastic).

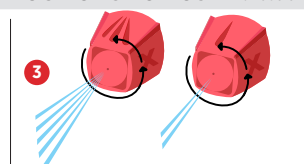

INSTRUCTIONS FOR USE: For use exclusively with TruShot 2.0 cartridges

1. Slide cartridge into the sprayer until it clicks.

2. Lift lid. Add tap water in the water tank (until MAX). Close the lid.

3. Turn the nozzle on the wide or short spray depending on the targeted cleaning choice.

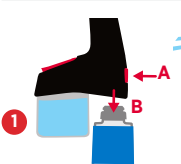

4. Spray 20cm from surface. To clean or disinfect:
Refer to the instructions on the label.

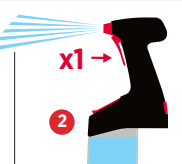

5. At the end of the day, empty completely water from water tank - every 24 hours at the most. Turn the nozzle OFF. Store water tank upright, open & empty. and leave it open.

CHANGING CARTRIDGES:

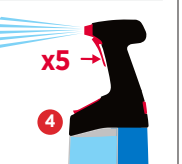

1. Press the release button (A)
Remove the cartridge (B)

2. Spray one time after cartridge has been removed.

3. Insert new cartridge. Add water before use.

4. Spray 5 times to prime dispenser before applying the product to the surface.

CERTIFICATION
