

Cutan® INSTANTFOAM

ALCOHOL-BASED FOAM HAND SANITISER

PRODUCT DESCRIPTION

Highly effective broad spectrum alcohol based hand sanitiser dispensed as a foam. The world's first alcohol foam hand sanitiser proven to be fully virucidal. Incorporates the 1.5ml OptiDose™ foam pump for use in hygiene critical environments where larger usage volumes are required.

WHERE TO USE

Ideal for use in all healthcare and food handling environments where high levels of hand hygiene are vital. Also, suitable for use in cafeterias, office areas, rest areas and any public facility to help reduce the spread of germs.

BIOCIDAL EFFICACY

Bactericidal, Virucidal, Yeasticidal, Mycobactericidal.

WHEN TO USE

Healthcare environments – use hand sanitiser as per the World Health Organisations '5 Moments of Hand Hygiene' recommendations.

Food handling environments – use hand sanitiser as recommended by HACCP risk assessment.

General hygienic use – use hand sanitiser after coughing, sneezing, contact with body fluids or touching potentially contaminated surfaces.

HOW TO USE

Ensure hands are clean and dry before use. Use several times a day, as required.

For general hygienic use: apply 1 dose and rub well across all parts of the hands for 20-30 secs.

For hygienic skin disinfection (according to EN1500): Apply 2 x doses (3ml). Rub well across all parts of the hands, make sure foam continuously covers the skin for 30 secs (fully virucidal 40 secs).

For surgical disinfection: Apply 2x doses (3ml) and reapply as required to keep hands wet for 180 secs.

	DESCRIPTION	BENEFITS
FEATURES	Complete broad spectrum activity	Highly effective formula kills 99.999% of many common germs, and is fully tested and proven to be bactericidal, virucidal, yeasticidal and mycobactericidal.
	Full virucidal activity	According to test method EN14476 the product is effective against all enveloped and non-enveloped viruses. Also proven to deactivate SARS-CoV-2.
	Instant foam action - dispensed as a foam	Rapidly and easily rubs across hands, providing the user with complete control of the product, preventing the dripping and splashing associated with using liquid alcohol sanitisers.
	Non tacky	Unlike alcohol gel sanitisers, the product does not contain gelling agents that leave the hands feeling sticky, particularly after multiple use.
	Non-drying formula	Independently tested and proven to maintain skin moisture to help keep the skin in good condition, even after frequent use.
	No mess	Does not clog pumps or splash and drip on surrounding floor and wall surfaces as associated with liquid and gel sanitisers.
	Pleasant-to-use	The rich foam is extremely pleasant for frequent use in-between hand washing, encouraging maximum compliance.
	Convenient	Available in a range of sizes for use in different healthcare, workplace and public environments.
	Skin Hypoallergenic	This product is tested by an independent dermatologist using Human Repeat Insult Patch Tests (HRIPT) to verify and confirm this product does not irritate the skin and has very low allergenic potential.
	Designed for Sensitive Skin¹	This product is formulated to reduce allergenic potential, which means the product is perfume-free and dye-free, skin hypoallergenic and ECARF Certified ³ .
INGREDIENTS	Perfume-Free and Dye-Free	Designed for people who are sensitive to perfumes and dyes and who prefer products which do not have these added.
	Not made with ingredients of animal origin	Helps customers with Halal and Kosher ingredient requirements.
	80% alcohol content	The formula with a high level of ethanol meets the requirements for effective broad-spectrum efficacy and is proven to be bactericidal, virucidal, yeasticidal, and mycobactericidal.
CERTIFICATES/COMPATIBILITY	Certified by HACCP International²	Certified by HACCP International as being suitable for use in facilities that operate a HACCP based food safety programme (Food Zone Classification SSZ) when used as directed. Food handlers should use product only in accordance with label instructions and product should not come directly into contact with food or items that contain food. 47ml bottle does not comply to HACCP International criteria.
	ECARF Certified³	This product meets the European Centre for Allergy Research Foundation (ECARF) criteria for skin tolerability. For more information go to http://Ecarf-siegel.org/en/about-seal .
	Suitable for food facilities	Product has been independently evaluated and trace amounts of the product are not expected to cause adverse toxicological effects. Food handlers should use product only in accordance with usage instructions and product should not come directly into contact with food or items that contain food.
	Proven glove compatibility	Suitable for use with latex, vinyl and nitrile gloves.

¹The product does not guarantee a complete absence of risk of an allergenic reaction. Allergy sufferers should always refer to the ingredient list before using the product.

STATUTORY REGULATIONS

This product meets the current national regulations for Biocidal products.

SAFETY DATA SHEETS

For Safety, Environmental, Handling, First Aid and Disposal information please refer to the Safety Data Sheet which can be downloaded from <https://www.scjp.com/en-gb/safety-data-sheets>

HANDLING INSTRUCTIONS

Use biocides safely. Always read the label and product information before use. Please refer to the label or SDS for safety information.

SHELF LIFE

This product has a shelf life of 36 months from the date of manufacture when stored unopened at room temperature.

SUITABLE FOR USE IN FOOD HANDLING AREAS

When used as instructed, Cutan® INSTANTFOAM hand sanitiser does not influence the quality and safety of foodstuffs.

The product has been assessed using the HACCP hazard analysis methodology. The following critical control points were identified and are controlled as follows -

1. Impact on smell and taste of foodstuffs - The formulation has been independently tested according to 'Sensory Analysis - Methodology - Triangle Test BS EN ISO 4120:2007' and proven to not have the potential to taint food.
2. Possible toxic effects of the ingredients - An independent oral toxicological evaluation was performed and concluded that any foodstuffs which may contain trace amounts of the product, are unlikely to cause adverse toxicological effects.

CERTIFICATIONS

HACCP International Certified

This product and the dispensers it is to be used with have been certified by HACCP International as being food-safe hand hygiene products suitable for use in facilities that operate in accordance with a HACCP based food safety programme in Food Zone Classification SSZ (Splash or Spill Zone). This means products are suitable for use in food handling areas such as kitchens, production areas and processing areas, but not suitable for coming directly into contact with food or items that will touch food. HACCP International's evaluation and certification is strictly confined to matters of food safety or the operation of a HACCP based food safety programme. Whilst all reasonable care is taken by HACCP International in its evaluation of the product(s) or services(s) described herein, HACCP International does not guarantee that every food safety risk in every application has been identified. No guarantee is offered or implied in the issuing of this statement.

47ml bottle does not comply to HACCP International criteria.

ECARF Seal of Quality

This product meets the European Centre for Allergy Research Foundation (ECARF) criteria for skin tolerability. Cosmetics can receive the seal of quality for meeting the following criteria:

1. Quantitative risk assessment of the product ingredients with respect to their potential for skin sensitisation, taking into account their specified conditions of use and amount.
2. Medically supervised clinical trials by volunteers with atopic dermatitis.
3. Approved system of quality control management.

For more information go to <http://ecarf-siegel.org/en/about-seal>.

¹ The product is designed for sensitive skin and formulated to reduce its allergenic potential¹

¹The product does not guarantee a complete absence of risk of an allergic reaction. Allergy sufferers should always refer to the ingredient list before using the product.

QUALITY ASSURANCE

SC Johnson Professional products are manufactured in facilities which follow appropriate quality assurance practices, including with respect to quality control processes for raw materials and finished goods, and comply with any regulatory requirements applicable to the manufacturing of such products.

PRODUCT SAFETY ASSURANCE

Product Safety Assessment

The product has been assessed by an independent toxicologist and is declared safe for intended use on hands of adults and children above 3 years of age when used as directed, meeting all relevant regulatory requirements.

Skin Compatibility Test

Independent dermatological tests conducted to assess the skin compatibility of the product using voluntary test persons in semi occlusive, 48 consecutive hour application models, shows the product to be non-irritating in use.

High Frequency Usage Study

In independent testing, Cutan® INSTANTFOAM hand sanitiser was proven to have no adverse effect on the skin condition of the healthy hands of test panelists, even after 48 applications per day for 5 days.

Cutan® INSTANTFOAM hand sanitiser was found to be significantly more moisturising compared to the control product - a market leading gel format hand sanitiser - and skin hydration was unaffected. Skin condition was assessed using Trans Epidermal Water Loss (TEWL) measurements, corneometry, visible redness inspection and skin conductance.

Skin Hypoallergenic

The perfume-free and dye-free formulation did not demonstrate a potential for eliciting dermal irritation or sensitisation after conducting an independent 6 week Human Repeat Insult Patch Test (HRIPT).

Allergy sufferers should always refer to the ingredients list before using the product.

Glove Compatibility

In independent testing, the use of Cutan® INSTANTFOAM hand sanitiser in combination with reputable latex, vinyl and nitrile gloves does not have any deleterious effect on the glove tensile properties using BS EN 455-2:2009 test methodology.

PRODUCT TESTING

TEST TYPE	TEST STANDARD	TEST CONDITION	COMMENT
Bactericidal	EN1500	<i>In vivo</i>	Product passes at 30 seconds (3mls).
	EN12791	<i>In vivo</i>	Suitable for surgical hand disinfection – apply 3ml and keep hands wet for 3 minutes.
	EN1276	<i>In vitro</i>	Suitable for use in food, industrial, domestic and institutional areas. Possesses bactericidal activity in 30 seconds under clean conditions using 4 referenced strains.
	EN13727	<i>In vitro</i>	Suitable for use in the medical area. Possesses bactericidal activity in 30 seconds under clean conditions using 4 referenced strains.
Yeasticidal	EN1650	<i>In vitro</i>	Suitable for use in food, industrial, domestic and institutional areas. Possesses yeasticidal activity against <i>Candida albicans</i> at a contact time of 30 seconds.
	EN13624	<i>In vitro</i>	Suitable for use in the medical area. Possesses yeasticidal activity against <i>Candida albicans</i> at a contact time of 30 seconds.
Mycobactericidal	EN14348	<i>In vitro</i>	Suitable for use in the medical area. Possesses Mycobactericidal activity against <i>Mycobacterium terrae</i> and <i>Mycobacterium avium</i> in 30 seconds.
Virucidal	EN14476	<i>In vitro</i>	Deactivates Murine Norovirus (30 seconds), Adenovirus (30 seconds), Poliovirus (40 seconds) and SARS CoV-2 (30 seconds). Virucidal according to EN14476 against all enveloped and non-enveloped viruses, e.g.: H1N1, H5N1, H3N2, HAV, HSV-1, HIV-1, HRVs, Rota, Filoviridae and Coronaviridae viruses.
