

# Stokoderm® Protect PURE

## General Skin Protection Cream

### PRODUCT DESCRIPTION

General purpose perfume-free skin protection cream to help protect the skin against light to moderate exposure to water and non-water based workplace contaminants.

### WHERE TO USE

Suitable for most workplaces to protect against light to moderate exposure to oil-based and water-based substances (such as oil, grease, lubricants and detergents) where gloves may be in use.

NB: Where possible skin exposure to potentially harmful substances and environments should be avoided through the implementation of safe working practices and the use of appropriate Personal Protective Equipment. Where skin exposure cannot be avoided, it is recommended to use an appropriate skin protection cream as part of a complete skin care programme to reduce the risk of occupational skin disease.

### INSTRUCTIONS FOR USE

- Apply 1ml to clean and dry skin before starting each work period and after washing hands
- Rub on all areas of the hands, including between the fingers and around the fingernails

General Purpose - Light to moderate exposure

**FORMAT: CREAM**

FEATURES	BENEFITS
<b>Proven general purpose protection</b>	Suitable for a wide range of working environments with light to moderate exposure to varying types of water and non-water based contaminants
<b>Quick drying</b>	Leaves a pleasant, non-tacky protective film on the skin to encourage regular use and not affect dexterity with hand held tools
<b>Contains Xanthan Gum</b>	Highly effective polymer which is used to stabilize the protective film provided by the product when applied to the skin
<b>Contains Glycerin</b>	Enhances the water holding capacity of the skin's upper layers, supporting the skin's own moisture system and natural barrier function
<b>Contains Kaolin</b>	A natural mineral which sits in the skin pores, to help prevent them from becoming blocked by oil-based substances
<b>Glove compatibility</b>	In independent testing, the use of Stokoderm® Protect PURE in combination with reputable latex, vinyl and nitrile gloves does not have any deleterious effect on the glove tensile properties using EN 455-2:2009 test methodology
<b>Non tainting and assessed according to HACCP guidelines</b>	When used as directed in food production and preparation areas, the product does not influence the quality of foodstuffs or present any risk to the health of its consumers
<b>USDA BioPreferred Certified<sup>1</sup></b>	This product is USDA Certified Biobased and contains 90% USDA certified biobased content. The USDA BioPreferred Program® is a voluntary initiative to provide assurance that product contains a certified amount of biobased ingredients are third-party tested and verified and monitored by the USDA. The USDA Certified Biobased Product label is a certification mark of the U.S. Department of Agriculture. For more information, visit <a href="http://www.biopreferred.gov">www.biopreferred.gov</a>
<b>Perfume free</b>	No added perfume. Ideal for people who are sensitive to perfumes and prefer products which do not have perfume added
<b>Silicone-free</b>	The product will have no adverse effect if in contact with surfaces prior to the application of paint or surface coatings
<b>Independently tested at the German Institute of Rubber Technology (DIK) and proven to have no negative effect on the vulcanization process</b>	Compatible with rubber production processes

### STATUTORY REGULATIONS

This product is manufactured and labeled in compliance with the Federal, Drug, and Cosmetic Act issued by the Food and Drug Administration (FDA).

### SAFETY DATA SHEETS

For Safety, Environmental, Handling, First Aid and Disposal information, please refer to the Safety Data Sheet which can be downloaded from [www.debgroupp.com/us/sds](http://www.debgroupp.com/us/sds).

### SHELF LIFE

This product has a shelf life of at least 24 months from the date of manufacture when stored unopened at room temperature.

### CERTIFICATIONS

#### USDA BioPreferred

This product is USDA Certified Biobased and contains 90% USDA certified biobased content. The USDA BioPreferred Program® is a voluntary initiative to provide assurance that product contains a certified amount of biobased ingredients are third-party tested and verified and monitored by the USDA. The USDA Certified Biobased Product label is a certification mark of the U.S. Department of Agriculture. For more information, visit [www.biopreferred.gov](http://www.biopreferred.gov).

### QUALITY ASSURANCE

SC Johnson Professional products are manufactured in facilities which follow Current Good Manufacturing Practice (cGMP) and/or Cosmetic GMP requirements.

All raw material used for production undergo a thorough quality control process before being used for manufacturing in our high quality products.

All finished products are subject to intensive quality testing before being shipped out to our customers.

### PRODUCT SAFETY ASSURANCE

#### Skin Compatibility Test

Clinical dermatological tests have been conducted to assess the skin compatibility of the product using voluntary test persons in semi occlusive, 48 consecutive hour application models. These tests, as well as in practical use, have proven that the product has very good skin compatibility. Skin compatibility expert reports are available upon request.

#### Toxicological Approval

The product has been independently assessed for human toxicity and product stability. It is declared safe for intended use, meeting all relevant regulatory requirements.

### INGREDIENTS

AQUA (WATER), KAOLIN, CETEARYL ALCOHOL, DICAPRYLYL CARBONATE, GLYCERIN, XANTHAN GUM, PHENOXYETHANOL, DIAZOLIDINYL UREA, SODIUM CETEARYL SULFATE, SODIUM LAURYL SULFATE, YELLOW 5 (CI 19140), YELLOW 6 (CI 15985)

### COMPATIBILITY TESTS

#### Glove Compatibility

In independent testing, the use of Stokoderm® Protect PURE in combination with reputable latex, vinyl and nitrile gloves does not have any deleterious effect on the glove tensile properties using EN 455-2:2009 test methodology.

#### Rubber Production Process Compatibility

In testing conducted by the Deutsches Institut für Kautschuktechnologie (DIK) in accordance with EN ISO/IEC 17025, the use of Stokoderm® Protect PURE in rubber production process does not influence the cohesive strength of rubber.

### EFFICACY TESTS

#### Human Repeat Irritation Patch Test (HRIPT)

11 day HRIPT testing shows that Stokoderm® Protect PURE is effective in reducing irritation caused by the water-based contaminant Sodium Lauryl Sulphate.

#### Barrier Property Test

Repeated Occlusive Irritation Patch Testing using 14 healthy panellists was conducted using one water-soluble substance (Sodium Lauryl Sulphate) and one non-water based substance (Ethyl Acetate/Undecylenic Acid, 1:1). Each substance was applied at one time per day for 30 minutes over 5 days, alternating the water-based substance in the morning and non-water based in the afternoon.

Results (Figure 1) show Stokoderm® Protect PURE significantly reduces the Visual Skin Erythema and Trans Epidermal Water Loss (TEWL) compared to unprotected skin.

### SUITABLE FOR USE IN FOOD HANDLING

The use of Stokoderm® Protect PURE as per usage instructions, does not influence the quality and safety of foodstuffs.

The product has been assessed using the HACCP hazard analysis methodology. The following critical control points were identified and are controlled as follows -

1. Impact on smell and taste of foodstuffs - The formulation has been independently tested according to 'Sensory Analysis - Methodology - Triangle Test EN ISO 4120:2007' and proven to not have the potential to taint food.
2. Possible toxic effects of ingredients - An independent oral toxicological evaluation was performed and concluded that any foodstuffs which may contain trace amounts of the product, are unlikely to cause any adverse toxicological effects.
